## **JET WORKS AIR CENTER AWARDED**

### **MD-87 COMPLETION ASSIGNMENT**

**NOVEMBER 10, 2010 DENTON, TX....**Jet Works Air Center (JWAC), the rapidly growing maintenance and completion company headquartered in Denton, Tx, just northwest of DFW Airport, announced today that it has been awarded a multi-million dollar completion project by a private Middle Eastern individual.

Trey Bryson, President of JWAC, stated that the project involves converting an MD-87 commercial airliner into a modern and luxurious private jet that will accommodate 24 passengers.

The interior configuration will feature a luxurious and contemporary cabin with a leading edge cabin entertainment system. Bryson added that one of the major features of the interior will be the capabilities in terms of Wi-Fi, Internet access and communications, with virtually all contemporary formats included.

Thus far this year Jet Works has already delivered one Boeing 737 and three Boeing BBJs to owners after completing extensive interior refurbish work.

Operating out of approximately 100,000 square feet of hangar space, in addition to large cabin interiors, Jet Works offers heavy maintenance service, avionics and paint capabilities for 97 models of Gulfstream, Challenger, Lear, and Citation business jets.
